

Innovative Sensors.

Kavlico, a brand of Custom Sensors & Technologies (CST), has more than 50 years of experience in the design of innovative pressure, position, force and other specialty sensors and transducers for mission critical applications in harsh environments for Transportation, Building Equipment, Energy & Infrastructure, Food & Beverage, Medical as well as Aerospace & Defense markets.

Pressure Sensors

Kavlico Pressure is a leading designer and manufacturer of **pressure**, **fluid level**, and **specialty sensors** for the Transportation Building Equipment, Energy & Infrastructure, Food & Beverage, Medical as well as Aerospace & Defense markets.

Position & Force Sensors

Kavlico Position and Force Sensors is a leading designer and manufacturer of sensors for harsh environment applications, such as Aerospace, Defense, Energy and Nuclear.
